# BECOME A PART OF OUR GARDEN MARKETPLACE COMMUNITY

We're looking for exhibitors that want to join a vibrant group of exhibitors excited to be a part of the changing environment at the National Home Show co-located with Canada Blooms. We want to give consumers an experience they'll never forget and you'll be a part of that!

## LET'S GROW TOGETHER!

Over **85,000+** people at the show are looking for gardening products, tips & tricks\*  
\* based on 2016 consumer survey

Hello! It's Kelly, I'm here to help!

## TESTIMONIALS

Following 2015, the folks at Canada Blooms and the National Home Show worked diligently to address and improve past weaknesses in both the Garden Marketplace and the Garden Show itself. They met or exceeded every demand we made and went the extra marketing mile to win back lost visitors to the show. Consequently, as with all our 2016 fellow vendors Kate's Garden revenue at the show was up significantly and we are increasing our booth size by an extra 20 x 10 for 2017.

The National Home Show co-located with Canada Blooms provides an excellent opportunity to market your company and products to captive and interested customers. The show delivers high volumes of traffic over the duration of the show and has resulted in a large book of orders for my company.

I've attended several gardening shows and found the National Home Show and Canada Blooms to be, by far, the best! They had a consistent flow of customers, more vendors, a wide variety, huge building, and excellent set-up. The caliber of detail provided is phenomenal. You meet a multitude of customers and make many connections. In addition, I found staff running the show cared. They listened to customer & vendor concerns and are constantly making changes to make it better than it already is! I would recommend it to anyone!
