

HORTICULTURAL JUDGING CRITERIA

Anyone judging classes at this show may NOT enter any Horticultural, Special Exhibits or Design class on either entry day.

The following rules apply to all classes at this show:

1. All Design, Horticultural and Special Exhibit entries will be judged by a designated team of judges selected by the Toronto Flower Show Convenors.
2. Judges at this year's show will not be permitted on the show floor during entry times for exhibits.
3. No one other than those authorized by the Show Committee will be permitted into the area of the Toronto Flower Show where judging is in progress and no one may discuss the exhibits with the judges prior to judging.
4. Designs and Special Exhibits must not be altered in any manner after judging. Deteriorating plant material however, must be replaced in order to keep the exhibit in show condition.
5. In Horticultural classes, no further subdivisions may be made, once judging commences.
6. The decision of the Judges is final.

HORTICULTURE & SPECIAL EXHIBIT COMPETITION RULES

Regulations and judging standards

1. General Regulations (pages 7, 8), Judging Criteria (page 9) and *The Ontario Judging and Exhibiting Standards for Horticulture and Floral Design*, 2003 edition, (OJES) will govern.

Possession

2. *All plants exhibited must have been grown by the exhibitor for at least 3 months prior to March 9, 2018, except in the Special Exhibit Classes. All bulbs and branches must be forced by exhibitor in classes 15, 16, 17 and 18.*

Forms

3. Horticulture and Special Exhibit Registration Forms and Entry Forms are available at the Garden Club of Toronto monthly meetings or at the Canada Blooms Offices. They are also available on line at canadablooms.com and may be downloaded or filled out online. All

completed forms must be legible, accurate and neatly printed in BLOCK LETTERS.

- a) **Registration Forms** must be received by the Registrar by Monday March 5, 2018. Please email or mail registration forms to the Garden Club of Toronto office. See inside back cover for information on addresses and numbers.

Special Exhibits must be pre-registered with the listed class convenor. Pre-registration of horticultural entries is strongly encouraged but not required (it is faster to delete an entry on entry day than to enter new data). Exhibitors may register any additional entries in the horticultural classes on site on ENTRY DAY.

- b) **Entry Forms** must be printed clearly and include the exhibitor's name, class number and plant names/lists using both botanical and common names of specimens where applicable. Entry forms accompany exhibits on entry day. The entry card on display during the show is prepared from the information provided on this form.

Entries

4. Exhibitors may have up to **THREE entries per class in the Horticulture Division**, as long as they are different species or cultivar of a species. **Exhibitors may have only ONE entry per class in the Special Exhibits Division.**
5. **Exhibitors may have no more than 30 entries in total.** Each entry must be accompanied by its own **Entry Form.**
6. **Plant lists:** A plant list is required for classes that permit two or more species or cultivars. Botanical and common names must be included on the entry card and ALSO on a 10 cm x 15 cm (4"x 6") index card.
7. Should the exhibitor require the watering/ grooming committee to care for an exhibit during the show, the exhibitor must attach instructions including watering requirements and any special needs to the entry form. The water/grooming committee will be notified of these needs.
8. Exhibitors may enter horticultural classes on 1st and 2nd entry days, provided each is completely different from the previous species or cultivar exhibited. Special Exhibits must contain completely different plant material than any of the plant material used previously in the show this year.
9. Where a class exists for a special type or variety of specimen, a specimen entry must be exhibited in that class, e.g. ferns must be

exhibited in a fern class. The Novice Class 21 and Provisional Class 22 are exempt from this rule. Classes 23, 24 and 25 are also exempt.

10. Potted plants may have more than one stem if it is characteristic of the cultivar, e.g. Hedera helix. Specimen plants may have only one rooted stem, e.g. Azalea or Rosemarinus officinalis.
11. **No accessories are permitted in horticultural classes** unless otherwise stated. **Accessories are permitted in MOST Special Exhibit classes.**
12. Topdressing is not mandatory but may be used at the discretion of the exhibitor and where appropriate. Unobtrusive staking is permitted in horticultural classes. No “training rings” are permitted for Saintpaulia (African violet) exhibits.
13. Entry Days/Times
First Day entries: Wednesday, March 7, 2018
Hours: 4:30 p.m. to 7:30 p.m.
Second Day entries: Tuesday, March 13, 2018
Hours: 6:00 p.m. to 8:00 p.m.
NOTE: entries will be registered from 6:00 p.m. to 8:00 p.m., but will be placed on the floor after 7:30 p.m. when Day 1 entries are removed. For classes 26-37 inclusive, or other Special Exhibit classes requiring prep time on the show floor, entrants must be registered by 8:00 p.m. but may continue to work until 10:00 p.m.

Please note that unless otherwise stated in the class description, ALL CLASSES have 2 entry days.

Classification

14. A member of the Classification Team must initial each **Entry Form** before the exhibitor places the exhibit on the show floor. The Classification Team may, at its discretion, refuse to accept an entry if it is not considered to be of show quality, or not free from pests and disease.
15. **Please Note:** No competitors will be allowed to groom or water their entries after they are placed on the show floor until judging has been completed. The Show Committee may allow exhibitors to cover their entries if temperature and/or dust conditions would damage plants. Covers will be removed before judging by members of the Show Committee and replaced shortly thereafter.

Staging

16. The Show Committee may subdivide horticultural classes and may move or remove horticultural entries if necessary before judging commences.
17. All exhibits must be kept in show condition. Exhibitors are responsible for maintaining and watering their entries AFTER JUDGING HAS TAKEN PLACE, unless they have notified the Horticultural Chair. See Rule 7. Plant material must be kept fresh for the duration of the show. Work may be done any time during the show, including public open hours.

Judging

18. Judging Dates/Times

First Day: **Thursday, March 8, 2018, 1:00 p.m.**

Second Day: **Wednesday, March 14, 2018, 9:30 a.m.**

NOTE: Anyone judging Horticultural, Special Exhibit or Design competitions at the show will not be permitted to enter any Horticultural, Special Exhibit or Design competitions at this show.

Removal

19. Exhibitors are responsible for and must remove their exhibits according to the schedule listed below.
All classes entered on First Entry Day must be removed Tuesday, March 13, 2018 between 7:30 and 8:00 p.m.

All classes entered on Second Entry Day must be removed Sunday, March 18, 2018 between 5:00 and 5:45 p.m.
20. No boxes or other removable containers are permitted on the show floor prior to removal times as set out above.

Pot Size

21. Pot size refers to the inside measurement of the container, at the top, in which the plant is grown. Measure along the slim lines as shown in the following diagrams.

HELPFUL HINTS FOR THE HORTICULTURAL COMPETITIONS

Please check *Ontario Judging and Exhibiting Standards for Horticulture and Floral Design*, 2003 edition, also known as OJES.

The following are a few of the criteria the judges take into consideration when judging:

- When there is more than one specimen of the same cultivar in an entry, the judge looks for uniformity in size, form, colour and stage of development as well as cultural perfection.
- Freshness of material, along with the proportion of the stem to the cultivar and condition of the foliage, where applicable, are looked at carefully.
- Floriferousness refers to the abundance of flowers on the entire plant. The quality of colour and size, as well as the number of flowers, is of importance.
- Good condition and grooming are important, and all entries must be free of pests and disease. Any damaged foliage should be carefully removed so that it does not affect the overall appearance of the exhibit.
- It is important for the exhibitor to check in *Ontario Judging and Exhibiting Standards for Horticulture and Floral Design* (2003 edition), for the Scale of Points for each type of exhibit, e.g. Flowering Branches have a Scale of Points that is quite different from that for Cacti and other Succulents. By checking in this publication, you could end up with the winning entry! It is really a “must do”.
- Saucers of compatible material should be brought with potted plants and placed under them for drainage.
- Reference books that might be of assistance are:
Reader's Digest A-Z Encyclopedia of Garden Plants - Brickell, Cole, Zuk
The Reader's Digest Success with Houseplants
New Encyclopedia of Herbs & Their Uses – Bown
- **Remember to read your schedule carefully – it is the law of the show.**

Horticultural and Special Exhibit Entries 2018

You will need to complete two types of forms, available from Garden Club of Toronto monthly shows, or downloaded from either the Garden Club of Toronto website: www.thegardencluboftoronto.ca, or the Canada Blooms website: www.canadablooms.com.

1. Horticultural & Special Exhibit Registration Form (1 per exhibitor)

This form may be completed and submitted for pre-registration by March 6, 2018, or you may register on-site during the entry times. The form must contain the exhibitors' name and club affiliation, if any.

This form lists all the entries you are submitting for both entry days. A copy of this form will be available at the registration desk on the show floor, and this information will have been entered into the show database if you have pre-registered. All Special Exhibit entries **must have been pre-registered**. On entry days, you must notify the Entries Convenor in the Hort office of any horticultural entries that are added or deleted. See pages 9 and 10 for information about registration and forms.

Entry Form (1 per entry)

This form must be attached to each entry and is not to be pre-submitted. It allows the show committee to identify the owner of each plant or entry until the printed forms are completed from our database. If you are entering an "Exhibit" in Section F, G, or H you must attach a printed list of plants with both botanical and common names to your entry. This must be on a 10 cm (4") x 15 cm (6") card, or on paper that can be cut to fit the holders placed on the show floor with your entry.

NOTE: These forms may be copied from the form inserted in the schedule or downloaded from the website www.canadablooms.com. Also, they will be available on the entry days at the Registration tables.

If you have more than 10 entries, please arrive at least one hour and a half prior to the close of entries on Wednesday March 7, 2018 and Tuesday March 13, 2018. No entries will be allowed after that time.

Exhibitors may enter the show floor any time after 2:30 p.m. on Wednesday March 7, 2018 to begin preparing their entries, but entries will not be classified or accepted until 4:30 p.m.

2. Class Eligibility

There are two days for most classes, unless otherwise noted. See Horticulture and Special Exhibits Competition Rule #8, page 10.

- **Sections A, B, and C** are open to all interested non-professional exhibitors and all members of horticultural societies and garden clubs including the Garden Club of Toronto.
- **Sections D, E, F and G** are limited to members of the Garden Club of Toronto.
- **Section H** is open to all interested non-professional exhibitors and all members of horticultural societies and garden clubs other than the Garden Club of Toronto.
